

Full Day Preschool with Child Care

The full day program is designed for families needing child care during the day. Children in this program participate in a structured preschool program up to 5 days a week.

These mixed age classrooms provides a structured preschool experience in the morning, with the remainder of the day being filled with a variety of supplemental activities including more socialization during free time, expanded outdoor time, and an expansion of science activities and long term creative art projects. Children are served breakfast and two snacks daily. Parents must provide a lunch. There is ample time during the day for children to play freely with friends, share a book with a teacher and to take a quiet rest or nap after lunch.

Each child is challenged and encouraged at their developmental level. The structured daily routine provides numerous opportunities for children to plan and have an active role in their day. Children are encouraged to "use their words" to talk about conflicts and to work towards resolving difficulties or disagreements through problem solving and compromise.
